Recap of the Financial Aid Night

We had two wonderful guest speakers Wednesday night. Al Duncan joined us from 'Making it Count' and Jonathan Stroble joined us from the Georgia Student Finance Commission. Below you will find links to their respected websites as well as a few helpful links to specific pages we feel you need to check out. You will find that these webpages are very self-explanatory. We also have a few extra handouts in the college office left over from the event.

Feel free to have your child come by Mr. Terrell's office to pick them up if you are interested but remember, you can find the same information on their websites. We do encourage students to create accounts on both websites to help plan their college future. Feel free to email our office with any specific questions and I will be happy to answer them as best as possible.
